Real learning images through three ViT modules · signed companion

Same input and channel 0 · 196 patch-token responses per module

Input

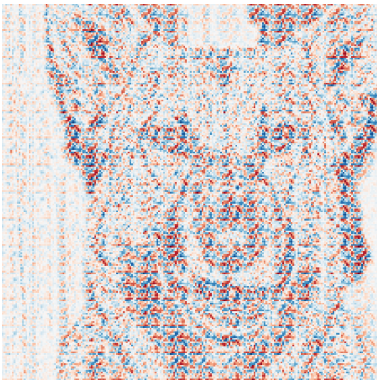

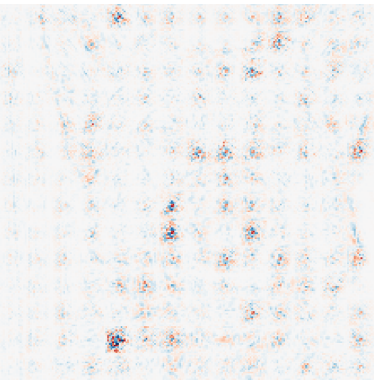

Patch embedding

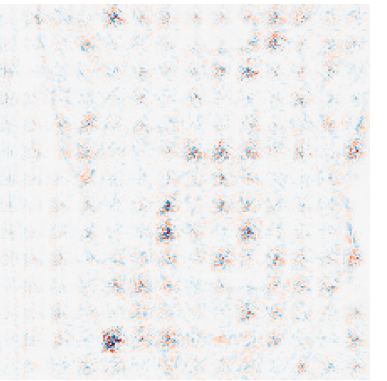

Attention · B0

Residual add · B0

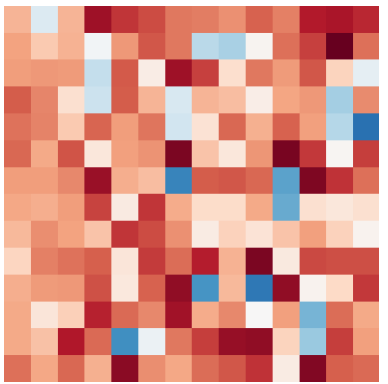

Learning image input coordinates

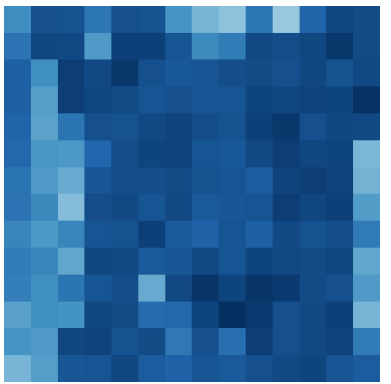

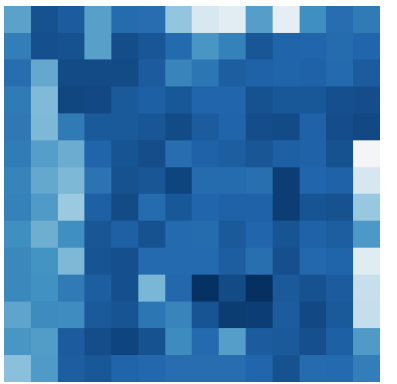

Token response internal indices

Top: complete signed response contributions · 224 × 224 Bottom: signed output values · 14 × 14

Bottom: blue < 0, white = 0, red > 0 · per-panel scales · B0 residual is before the MLP
