Patch embedding: real channel learning images

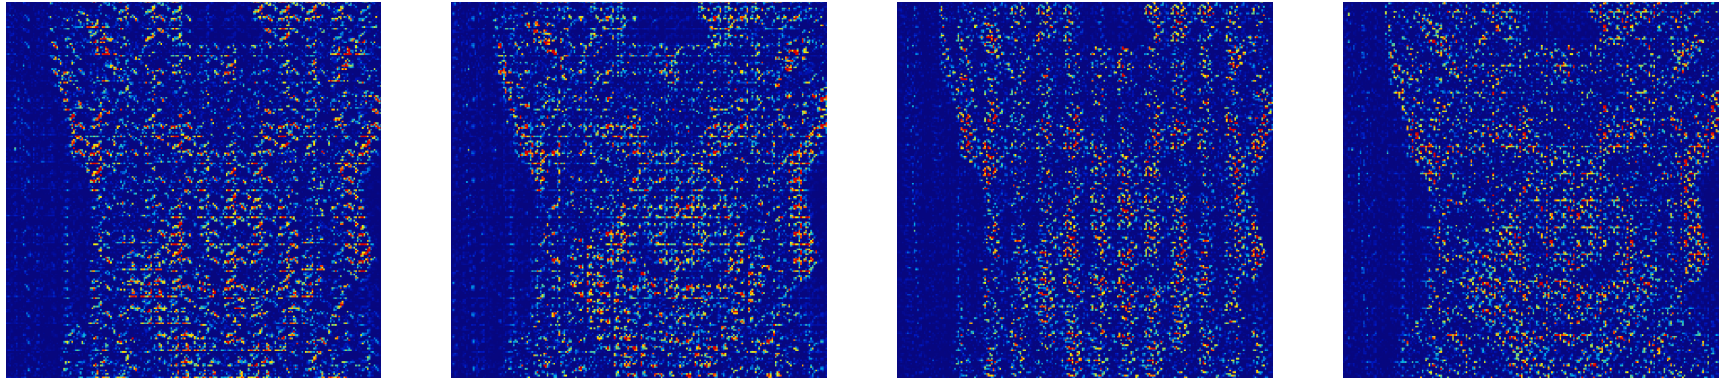

Patch embedding · fixed channel indices · same input and gray reference

Input

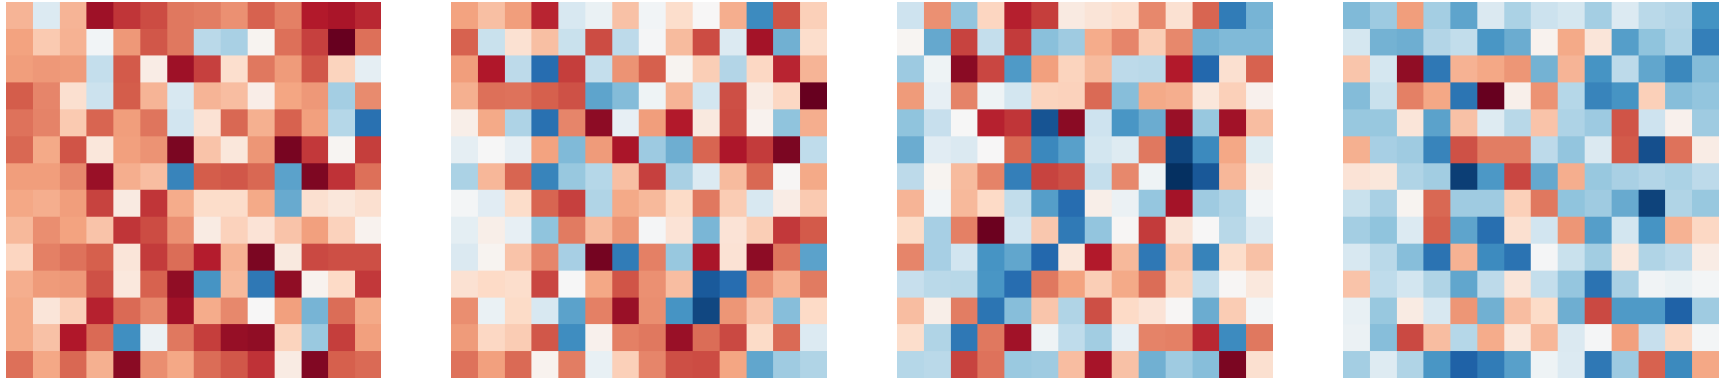

Channel 0 | **Channel 255** | **Channel 511** | **Channel 767**

Learning image input coordinates

Token response internal indices

Top: positive response contributions · 224 × 224 Bottom: signed output values · 14 × 14

Bottom: blue < 0, white = 0, red > 0 · per-panel scales · B0 residual is before the MLP
